International Congress

Soil Management and Interdisciplinary Approaches to Global Challenges

Vodice, Croatia

17 14–18 September 2026

About the Congress

The international Congress **Soil Management and Interdisciplinary Approaches to Global Challenges** will bring together researchers, practitioners, policymakers, and stakeholders from diverse disciplines to discuss sustainable soil management in the context of environmental, agricultural, and societal challenges worldwide. The event will feature keynote lectures, oral and poster presentations, workshops, and opportunities for networking and collaboration.

Congress Topics

- Soil management practices and innovations
 - Soil fertility and microbiological activity
 - Soil and climate change
- Interdisciplinary approaches to land use
 - Soil health and biodiversity
- Policy frameworks and sustainable development goals
- Technological advances in soil research and monitoring
 - Socio-economic aspects of soil management
 - Soil, water and plant interactions
- Soil contamination and remediation strategies
 - Digital tools and data science in soil research
- Regional and global case studies of soil management
